

Overview

ZTE HUVQ Uplink Card is 2 *10GE Port 2* GE Port Uplink board for ZTE C300 OLT. ZXA10 C300 is the industry's first FTTx office-side high-capacity access platform for next-generation PON evolution, providing extremely fast bandwidth, meeting full-service access, adapting to multi-scenario applications, and providing carrier-class QoS and security guarantees.

Product Details:

The Front Panel:

HUVQ Service Board Product Features:

Large capacity, high density, high performance, and flatness

It meets the requirements for network evolution and deployment of “large capacity and few offices”, and meets the requirements of flat network, high-density interface boards, and provides special solutions for large splitting ratio and long-distance application scenarios.

Seven-mode access to ensure continuous network evolution

GPON / EPON, 10G PON (XG-PON1 / 10G-EPON / XGS-PON), and NG-PON2 (TWDM-PON) three generations of PON access technologies are integrated on the same platform while supporting P2P. On-demand deployment and flexible access ensure continuous network evolution.

Adapt to network convergence and full-service carrying

It adapts to TDM and mobile backhaul bearers, complete VLAN / multicast / QoS service capabilities and excellent service performance, which meets the network construction requirements under the background of optical advancement, copper withdrawal, and triple play

Specific Data Sheet:

Control and switching cards	SCTM – Suitable for XGPON1, supports 16 port GPON cards, higher switching power, 4x 10GE uplink interface, 2x management interface
	SCXN – Supports 16 port GPON cards, 4x GE uplink interface, 2x management interface
	SCXM– supports 480 Gbps switching capacity and 32 K MAC address table.
	SCXL – No uplink interfaces, 2x management interface
GPON cards	GTXO – 4/8 XGPON1 ports, split ratio up to 1:256
	GTGO – 8 GPON ports, split ratio up to 1:256
	GTGH – 16 GPON ports, split ratio up to 1:128
	FTGK – 48 P2P ports (WDM) or 24 GE ports (separated fibres for uplink/downlink)
Uplink cards	GUFQ – 4x SFP (GE)
	GUSQ – 2x SFP (GE), 2x RJ45 (GE)
	XUTQ – 4x SFP (10GE)
	HUTQ – 4x SFP (2x10GE, 2xGE)
	HUVQ – 4x SFP (2x10GE/GE, 2xGE/FE)
